FINANCING APPLICATION

ASHCREEK WATER COMPANY
UTILITY NAME

Arizona Corporation Commission DOCKETED

SEP 062006

DOCKETED BY

W-02494A-06-0561

DOCKET NO(S).

You must complete all items in the application according to the instructions provided. If you have any questions regarding the application, call the Chief, Financial & Regulatory Analysis Section at (602) 542-0743 for assistance.

Send the original and sixteen copies of the application and cover sheet to the following address:

DOCKET CONTROL CENTER 1200 W WASHINGTON STREET PHOENIX AZ 85007-2927 14.4

Application for Financing Approval Page 1

- Ashcreek Water Company, an Arizona General Parnership.
 P. O. Box 825
 Thatcher, AZ 85552
- Bevan O. Barney, Interim Manager
 P. O. Box 825
 Thatcher, AZ 85552
- 3. Financing is to be obtained through the Water Infrastructure Finance Authority (WIFA). A copy of six separate projects submitted to WIFA is attached. WIFA terms of debt will apply. Interest will be 70% of the rate WIFA establishes for full rate. Term will be 20 years. A schedule of probable interest and principal payments is attached.
- 4. The expected gross proceeds will be less than the applied for WIFA total of \$113,380 as contracts are let for the improvement projects asked for. The total will also be reduced by the amount allowable by the Commission in a proposed rate increase. No loans will be made that are not sustainable from allowed revenue. Inflationary pressures will remain an unknown as to final cost.
- 5. Other than for wages, all of the net proceeds will be used as per the application for loans from WIFA and is attached as part of this application. The only additional physical plant involved is concrete footings, pipe and valves, and miscellaneous parts. Primarily the proceeds will be for placement and installation of these items and as-built design engineering costs.
- 6. (a). Bevan Barney, Interim Manager, was appointed by the Arizona Corporation Commission per an Interim Manager Agreement signed and in effect on May 14, 2004 and renewed annually as provided for by Commission Order 66180. The terms of the agreement call for doing what is necessary to bring the Ashcreek Water System into compliance with both ACC and ADEQ. This includes financing and rate increases.
 - (b). Commission Order 66180 was done in the public interest to rectify problems that the owning partners failed to provide their customers, that included, accounting, operating, filing for tariffs, rate increases, making capital improvements, repairing, testing and operating of the system to standards acceptable to the Utilities Division of the Commission and to the Arizona Department of Environmental Quality. Proceeding to do these tasks is in the public interest.

- (c). Ashcreek Water Company is poorly constructed, and was not completed as designed. If corrections are not made, the system will eventually fail for lack of ability to deliver safe water to its customers and eventually fail as a business, with dire consequences to those who invested within its CC&N. There is an outstanding NOV from ADEO that requires correction. The NOV notes that the system has no storage and water delivery is available only from pumping capacity. Of two wells, one has Arsenic, and requires storage to blend properly with the other well. Increasing the transmission line size from the non-Arsenic well will allow increased production of low Arsenic water. Other improvements are necessary to ensure the quality of water by looping lines where possible and thus providing better pressure to all customers. In addition, growth in the area will not happen without proper water delivery. This will have a deleterious effect on the public that has invested within the CC&N, and losses will occur as people cannot rely on the water. Losing the opportunity for that growth and its revenue stream will also deprive present customers of a sound utility able to make future improvements. In addition, the initial compensation for the Interim Manager was fixed upon the ability of the utility to pay. The work load has been far in excess of fair value for the tasks performed which include: evaluating the system, correcting leaks throughout the system, responding to callouts and emergencies, evaluating and correcting the accounting, filing current and delinquent tax returns, begin billing and collecting in a timely manner, clean up the Accounts Receivables. applying for WIFA priority, filing a Finance Application, filing a Rate Increase Application, negotiating a Borderline Agreement, finishing the CC&N protest that resulted in Decision 67951, mapping the protested area, verifying location and line sizes, applying for an approval to construct and approval to operate, locating lines not marked, mapped, installing meters, negotiating an Arsenic Blending plan, maintaining water testing, protecting wells and lines under the Patriot Act.
 - (d). This utility is too small to make significant improvements out of the revenue stream presently available. The debt sought is necessary for the proper performance of service as a public corporation. Some thought went into the rate increases requested in a separate application. Those customers using little water will have a monthly increase of only \$1.95 as they lose the included 1,000 gallons in the old tariff. With this as the only increase until 4,000 gallons are used, the increase will have little effect on the small user. Those using larger amounts of water will pay an increasing amount per 1,000 in both an attempt to ration water, and raise additional revenue from those most able to pay and are causing the greatest effect on the facilities' adequacy and future needs.
- 7. No fees are involved.
- 8. WIFA copies are attached.

- 9. A Pro Forma Statement is attached. This Pro Forma assumes that the Study Project not be included in this Financing Application. As the other 5 projects are engineered, much of the detail for the study will arise, and will be cheaper to do at a later time.
- 10. A copy of the notice is attached. It was mailed first class to all customers.

This system presently has no storage. Storage is necessary to prevent low pressure during peak use, and also to blend one Arsenic well with another to meet the new Arsenic standards.

PUBLIC NOTICE

OF

AN APPLICATION FOR AN ORDER AUTHORIZING THE ISSUANCE OF DEBT BY THE ASHCREEK WATER COMPANY

Ashcreek Water Company filed an Application with the Arizona Corporation Commission (Commission) for an order authorizing Applicant to issue \$113,380 of Installment Debt.

The application is available for inspection during regular business hours at the office of the Commission in Phoenix, Arizona, and the Company's offices in Thatcher, Arizona.

Intervention in the Commission's proceedings on the application shall be permitted to any person entitled by law to intervene and having a direct substantial interest in this matter. Persons desiring to intervene must file a Motion to Intervene with the Commission which must be served upon applicant and which, at a minimum, shall contain the following information:

- 1. The name, address and telephone number of the proposed intervenor and ofany person upon whom service of documents is to be made if different than the intervenor.
- 2. A short statement of the proposed intervenor's interest in the proceeding.
- 3. Whether the proposed intervenor desires a formal evidentiary hearing on the application and the reasons for such a hearing.
 - 4. A statement certifying that a copy of the Motion to Intervene has been mailed to Applicant.

The granting of Motions to Intervene shall be governed by A.A.C. R14-3-105, except that all Motions to Intervene must be filed on, or before, the 15th day after this notice.
